

The Simplicity of...

Text2Order

Text2Order - A built-in feature of YourStore™

Text2Order

- Save Your Staff Time
- Automatically Retain Patients
- Easy for Your Practice

Complimentary & Convenient

Text2Order is a built-in feature of **YourStore™** where your patients reorder their contacts via text response. A helpful tool to stay in touch with the patients who leave your practice with less than an annual supply.

Automatic Reminder Notifications

Texts are sent based on the patients' lens modality. **15 days before** their supply is set to run out, we'll text them prompting a reorder.

They simply respond **YES** to confirm.

They can choose to **snooze** or **cancel** their order, if necessary.

Easy To Enroll

To Enroll, patients simply select the **"Text2Order"** box during the checkout experience on **YourStore™**. You can also enroll patients on their behalf.
